### PROFILE

I'm in my final year of school. I've been studying web programming, especially frontend development, for about two years, and I'd like to continue improving my skills with time and experience.

### EXPERIENCE

#### Eduvisor Frontend

2024-2025

I participated in a project of the government of the Dominican Republic in the education section. This project is about bringing more facilities to the area of technical coordinators and district directors. We presented this project to the district (District 10-03) and I worked in the specialized area of frontend.

#### Brightmatterlab.lab Frontend Developer

2023-2025

I have participated in a company dedicated to the development of websites of all kinds, focused on the creation of digital solutions for sales and customer management.

### EDUCATION

#### Udemy 2023-2024

Escuela Desarrollo web desde cero hasta producción 13 en 1.

#### Udemy 2024-2025

The Complete Full-Stack Web Development Bootcamp.
